In The Name of God

Date: 13.10.2009

Health, Safety and Environmental (HSE) Policy

Energy Industries Engineering & Design Co. (EIED), as one of the leading companies in oil, gas, and petrochemical industries, is active in the fields of Feasibility Studies, Design (Basic and Detail), Procurement, Construction Management, Field Engineering, Site Supervision and Management Contracting (MC).

In order to play an effective role in sustainable development of the country and to provide for the health and safety of future generations, EIED is committed to the following:

- Observing international and national Health, Safety and Environmental (HSE) laws and regulations
- Protecting natural resources
- Preventing environmental pollution

On this basis, EIED has defined the following services and activities as the Company policies and the framework to determine its objectives in the domain of HSE:

1. To promote and expand personnel knowledge about HSE culture in the Company
2. To improve HSE infrastructures in the Company
3. To endeavour to improve personnel health and safety
4. To try to optimize the consumption of natural resources and energy
5. To direct and monitor contractors in observing HSE requirements

To achieve the above policies, EIED top management has established Occupational Safety and Health Management System on the basis of OHSAS 18001:2007 and Environmental Management System on the basis of ISO 14001:2004 and commits itself to meet the requirements and to improve continually these systems.
