

Energy Industries Engineering & Design
(PRIVATE CORPORATION)

In The Name of God

Date: 11.01.2010

Quality Policy

Energy Industries Engineering & Design Co. (EIED), as one of the leading companies in oil, gas, and petrochemical industries, offers its services in the fields of Feasibility Studies, Basic and Detail Design, Procurement, Construction Management, Field Engineering, Site Supervision and Management Contracting (MC).

EIED in its activities considers the following as its Guiding Principles:

Professional Ethics, Honesty, Realistic Approach, Discipline, Justice, Quick Action Taking, Respecting the Rights of Others, Convergence of Company and Public Interests. Also, EIED is committed to understanding and observing the Clients' requirements, and responding to their expectations in order to enhance their satisfaction.

EIED in addition to playing a prominent role in the domestic market strives to be present in the regional markets as well.

In view of the above EIED has defined the following as the Bases of Quality Objectives for its organization units:

- 1- Recognizing the staff's needs and expectations, ensuring their satisfaction and developing convergence of ideas throughout the organization for meeting the declared objectives.
- 2- Securing the clients' satisfaction through provision of services/ products according to technical & engineering standards, health, safety and environmental (HSE) laws and regulations, within the contractual requirements.
- 3- Utilizing efficient, quality-oriented and loyal human resources and striving continually for promoting their professional knowledge and skills.
- 4- Applying new management systems, modern technologies, and up-to-date standards towards improving quality, extending the scope of services, and promoting engineering and supporting departments.

To achieve the above objectives, EIED top management has implemented its quality management system based on ISO 9001:2008 & ISO/TS 29001:2007 international standards and is committed to meet its requirements through continual improvement of its effectiveness.
